

**LUPE MORENO
STATE SENATE, 34TH DISTRICT**

I am the only candidate in this race who has lived in this Senate District for over 36 years. My family came here from Texas and Mexico. I have raised my children and grandchildren here.

Our great State is in serious trouble because we lack elected officials with the courage to tackle the tough issues facing us. I am running to take on the five most important problems that plague the voters in the 34th Senate District:

Transportation –

We must speed up modernization of our infrastructure. HOV lanes should have unrestricted use except for specific times of day. Freeways must be expanded where possible and maintained. Improved bus routes are more cost effective than light rail.

Taxes & Bonds–

No new taxes or bonds. Voters have to live within their budgets, so should Sacramento. Lawmakers should look to streamline government wherever possible, not grow it at taxpayers' expense.

Illegal immigration –

I support legal immigration. We must enforce existing laws. Citizens and legal residents should have first priority when it comes to jobs, services and education. Any arrested criminal who is proven to be here illegally should be immediately deported.

Eminent Domain –

I support private property rights. Developers should not be allowed access through the back door of city councils.

Education –

Our education system is broken. Our children deserve better. We must return local control of our public schools to parents.

I will fight hard for your family and our District. I respectfully ask for your vote.
